The proposed schedule for the 62nd OAPI was suggested to be March 1,2 and 3rd of 2020. This will be finalized in the meeting with Hotel staff when Brykalski, Simons and Driggs finalize the payment for the 61st conference.

(Humble) will finalize the conference survey and forward the results to the board so that planning for next conference can stay on track for participant's and approvals from the DIC, BBS and ICC credentials.

(Richardson) brought up that the board should investigate more ICC programs for the next conference. We are an ICC chapter and we receive an allowance each year to help pay for programs. All so OAPI should consider sending a more representative to the next ICC meeting.

(Hudson) brought up that the board should investigate with BBS about teaching classes in the form of filmed units. This would allow the OAPI to provide need funds to ensure better programs for the conference.

(Bronson) gave (Hudson) a notebook of past minutes from (Wakeley) along with a tape recorder that (Hudson) had provide to Board several years back. NOTE: there were no recordings on the two tapes.

(Bronson) did not have any minutes for the past two years or for this conference. He stated he would forward them to (Hudson) later this month.

The total board discussed the need for OAPI programs for versus trade schools, colleges, and vocational schools. This

will help all the Plumbing Inspectors throughout Ohio for we are not getting any younger. It was discussed about giving an invite to the versus programs and schools for a free day at the next conference.

(Brykalski) ask (Humble) to set up a conference call for early in March 4th, 2019 so that the board could catch-up on the versus items discussed at this short meeting and any new business.

(Brykalski) requested the officers and trustees' names, address, emails, who they worked for and phone numbers.

The above notes are the recollection of author (Hudson) if any corrections, alterations, improvements or additional data needs to be added, please contact C. David Hudson at email cdavid@fuse.net.
